Cluster 3
ameboidal−type cell migration
cell growth
axonogenesis
epithelial cell migration
epithelium migration
tissue migration
regulation of cell morphogenesis
urogenital system development
cell−substrate adhesion
renal system development
kidney development
regulation of cell−substrate adhesion
phosphatidylinositol−mediated signaling
inositol lipid−mediated signaling
epithelial cell development
regulation of cell junction assembly
phosphatidylinositol 3−kinase signaling
regulation of cell−matrix adhesion
protein O−linked glycosylation
negative regulation of cell−substrate adhesion
